Subject: National Grid and Verizon Joint Pole Pet. -
WR #30884966 284 Elm Street. Installation of
Underground Facilities Petition Sketch
received 5-14-2025

Amesbury Public Works has reviewed the proposed Pole Installation requested by National Grid and Verizon for 284 Elm Street in Amesbury on the Petition Plan WR# 30884966 dated March 20, 2025 and received by the City on May 14, 2025.

Public Works has no significant concerns with the installation of a riser and conduit at new pole 80-50. National Grid and Verizon confirm that the proposed installation does not conflict with other utilities within the edge of the City right of way prior to installation.

Public Work's review was completed to address the City's concerns of possible underground utility conflicts. This review was not intended to provide any indication that the property owners abutting the proposed pole location have no concerns with the pole.

Prior to installation or relocation of any utility pole, DIGSAFE, the City of Amesbury Department of Public Works, and the City Water and Sewer Departments shall be informed of the proposed activities.

Should additional information be required, please feel free to contact Lisa DeMeo, Assistant Director, or myself.

Sincerely,
