

Wetland Delineation
Evin Guvendiren
978-500-6564

5/23/24

BVW to Inland Pond
WF-A1 to WF-A7 (blue
flagging)

Delineation performed
based on vegetation soils,
and topography.

Flood Plain A - no BFE but
needs to be shown on the
plan.

Plan should also include the
25-foot, 35-foot and 50-foot
buffer zones in addition to
the 100-foot buffer zone.

Vegetation:

Dominant Canopy:
Norway Maple (buttressed roots
observed)

Dominant shrub:
multiflora rose

Dominant herbaceous species:
jewelweed, sensitive fern,
knotweed, garlic mustard, skunk
cabbage
