

STRUCTURAL REVIEW REPORT OF INSTALLED NEW EXTERIOR DECK FRAMING, FOUNDATIONS, AND SUPPORTS

For: Home Owner Kurt Sickler - 425 Main Street, Amesbury, MA 01913

STRUCTURAL FIELD REPORT

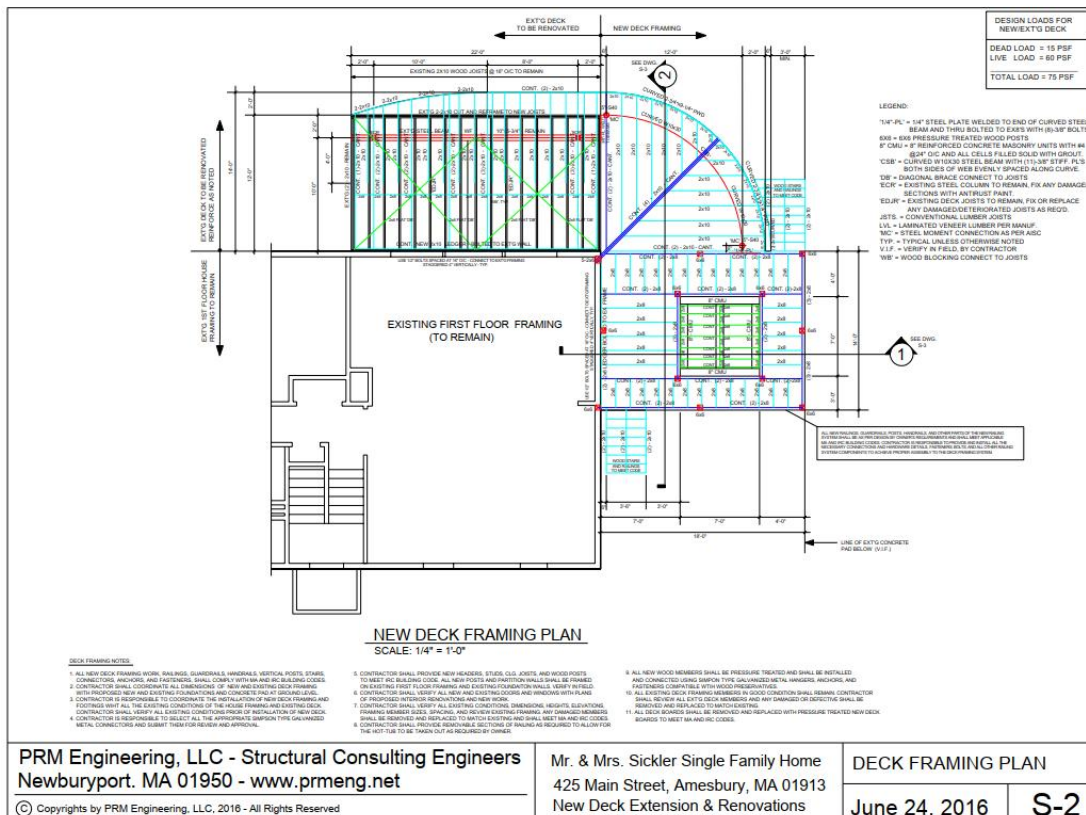

1. A Site Visit requested by Mr. Kurt Sickler took place on Tuesday July 30, 2024 from 9 am to 10 am to review the as-built conditions of a new exterior elevated exterior deck framing, foundations, and support at the rear side ofr his Single Family Residential home at 425 Main Street in Amesbury, MA 01913.
2. A walkthrough was done around the exterior rear and right side grounds of the house to look at the installed foundations and framing of the elevated deck and supports to confirm that the entire construction had been built according to the provided set of structural framing and foundation drawings which are attached at the end of this field report to document the review and observations of the work completed.
3. The observations of the installed framing and foundations reveal that indeed the elevated deck construction was built in general good conformance with the set of drawings and materials specifications and is found to be in acceptable good and serviceable conditions. Attached at the end of this field report is a set of pictures taken during construction and some taken during the recent site visit of Tuesday July 30th of 2024.
